[REDACTED] i'm off to town
early this morning and will be back early so i can get on the concrete and
rocky line. i kind of torment rocky to keep him concentrating on the chalet
rather than all the projects bill keeps him working on. the skies are clear
in girdwood and we are still running behind on the chalet, i don't want to
waste this good construction weather. good luck with the treatment for your
chest condition. bob

<PRE>Dear Ted, [REDACTED]

[REDACTED]

I went over to the chalet this morning and since we have a foot of snow i turned the heat tape on and i will go back this evening and turn it off. The guys put some great Christmas lights out and i intend to see how they look in the dark. I will get the Redmonds to come over and clear the drive of snow, i see there is a vehicle in the garage and it may be snowed in. We'll have a white Christmas and a better Christmas since you, CAS and Lily will be in town. My best, bob
